Take advantage of our knowledge

Elpress is the leading specialist in the field of industrial hygiene. We focus on delivering total solutions: customer-focused systems, professionally integrated into your business process. By simplifying processes and sharing our knowledge, our wide product range enables us to add value to your business. Take advantage of our knowledge and let one of our specialists advise you.

Product categories

one-stop shopping

Personal hygiene

Efficient personal hygiene can not be underestimated, especially in production environments where the risk of contamination poses great danger. Whether it's a wash basin, apron cleaner or a built-in hygienic entrance, our product range enables us to offer you a solution for every challenge. Systems produced in-house with an Elpress character; functional, high quality and hygienically designed.

Cleaning systems

Cleaning requires increasing degrees of specialism, for which knowledge and experience are critical. These two essential elements are extensively guaranteed at Elpress. We supply a balanced product range for the cleaning, foaming or disinfecting of your business and production rooms. Our cleaning systems can be found, and have been proven, around the world.

Industrial washing systems

Our industrial washing systems let you clean load carriers such as crates, pallets or boxes. Our systems are economical with the use of water, energy and cleaning agents. For efficient management of costs and the environment.

Components

When offering total solutions, components and accessories are an important element. Whether a high-pressure gun, spray nozzles or storage and clothing cabinets, thanks to our complete product range Elpress offers you a solutions for every challenge in the area of components and replacement parts.

Drainage

Elpress drains and gutters are of excellent and proven quality. The rounded shapes and smooth finish ensure that the water and dirt are removed without impediment. If a high concentration of contamination is present, the dirt filters ensure that the drains do not get blocked.

"To be the first choice for hygienic products, by developing leading solutions and providing added value while spreading our knowledge and passion for hygiene"
